ARMY & NAVY

1ST BATTALION
25TH INFANTRY
WINS SILVER CUP

Excellence Before the Target is Rewarded By Presentation of Handsome Trophy

(Associated Press by Federal Wireles)
SCHOFIELD BARRACKS, Sept. 27.—Last Saturday morning the companies of the 1st Battalion, 25th Infantry, were formed in a hollow square and the commanding officer of the 25th Infantry, Colonel Samson L. Faison, presented a beautiful silver cup to Company B of the same regiment. The occasion resulted from the recent target practise of the 1st Battalion. Major Guy G. Palmer, commanding the battalion, generously donated the cup to be competed for by the organizations in his command. It was to be awarded to that company showing excellence in its record practise and this rating was determined by adding all the aggregate scores made during record practise and dividing this total by the number of men firing. In other words the highest average aggregate won the cup.

Colonel Faison, in presenting the cup, stated that the record of the company was one of which every man in the organization and in the regiment should be proud. At the completion of last year's target practise this company had qualified but three sharpshooters and but a score of marksmen, and naturally it stood at the bottom of the regimental organizations as rated for their excellence in shooting. This year, by hard, earnest and conscientious work, the company had gone from the bottom of the ladder to the top, showing an improvement that had never before been equalled in the service.

Captain A. J. McNab, 25th Infantry, commanded the company, and its work is a repetition of the success that marks the target practise of his organizations. For years Captain McNab has been making records on the rifle range, individually and also with his company. There are very few better rifle shots in the world than he. In addition to being able to shoot so remarkably he is also without a peer in teaching others to shoot. No man is hopeless in his estimation unless he is totally blind.

Company B fired one hundred twenty-one men with the following results: Twenty-seven expert riflemen, thirty-six sharpshooters, forty-five marksmen, ten first class men and three second class men. The number of expert riflemen is greater than the total number of qualified men last year.

The inter-regimental league opens today at this post. The first game of the series is between the 4th Cavalry and the Field Artillery. A large crowd of supporters for each team and fans from the other regiments will be present. This game will show the strength of the mounted service organizations so most everybody will be there to look them over.

Tuesday night the parade ground in front of the 25th Infantry headquarters looked like lantern parade. All the signal men of the regiment had been assembled for practise with lanterns and the flashes were being thrown over the entire area. Lieut. Tinker, 25th Infantry, is in charge of this work and has an elaborate scheme for advanced instruction. When he completes the work laid out each company in the regiment will have a number of expert signal men proficient in all the means of visual signalling.

The many friends of Colonel Carl Reichmann will be sorry to learn that he has received orders to leave this department on the October 5th boat and proceed to the southern department where he will report for duty.

Colonel Reichmann is one of the best known officers in the army and has a host of friends wherever he has been stationed. His service has been more varied than that of any other officer in the army. Besides the active campaigns he has participated in during the past wars of the United States, these campaigns embracing active duty against the Indians, as well as arduous work in Cuba and the Philippines, he has also gone through the Russo-Japanese war as a military observer. In the former war he was with the Boer armies and in the latter war he was with the Russian army.

COMPANY C TO CAMP AT KAHALA

Company C, 1st Inf., N. G. H., Capt. Chas. R. Frazier, will make a practice march and go into camp for the week-end next Saturday afternoon at Kahala beach, Waialae, returning to the army Sunday afternoon.

The men of the company are "on their toes" in anticipation of the outing. An appropriate place has been selected for the camp near the beach, so that all may enjoy swimming and perhaps some fishing, also.

Capt. Frazier has arranged for a truck to take out the heavy field equipment, "chow," etc., and call for it again Sunday afternoon. The company is ordered to report at the army Saturday at 5 p. m., and to leave at 5:15 on the Waikiki car, marching from the end of the car line to camp. A large attendance should be on that evening at the regular drill in order to get blanket-rolls made up in advance for Saturday, and to learn the details of the trip. There will be no expenses to the men.

Rolling Waves
No Bother to
Army Surgeon

Maj. E. A. Dean Removes Man's Appendix on Board Transport Sheridan

What is said to be the first successful operation for appendicitis ever performed on the Pacific ocean was the one on September 13, aboard the United States transport Sheridan when Maj. E. A. Dean, United States Medical Corps, removed the appendix from Milton S. Finch, a private soldier.

"On September 13, when the Sheridan was three days from port," says the San Francisco Chronicle, "Finch was suddenly stricken with appendicitis.

"Maj. Dean, an army surgeon returning from the Philippines on the Sheridan, was called in and asked to operate on Finch, and while the Sheridan plowed through the waves he removed the appendix. Finch recovered rapidly from the operation and was removed to the army hospital at the Presidio when the Sheridan arrived."

ST. LOUIS WILL
SAIL FOR BASE
FRIDAY MORNING

Orders issued today for the cruiser St. Louis, which returned yesterday morning from a two weeks' cruise with Hawaii's Naval Militia, state that the big gray boat will remain in Honolulu at the naval slip until Friday morning at 9 o'clock.

At that hour she will weigh anchor, and, pulling out of port, will steam for Pearl Harbor for a stay of three days.

On October 2 the St. Louis will leave with the K division of submarines, which are due to sail on their quarterly runs off Lahaina for general and target drill. Militiamen were still on the cruiser at noon today, but will probably be relieved this afternoon.

Fort Shafter Notes

(Special Star-Bulletin Correspondence)
FORT SHAFTER, Sept. 27.—It is a great source of satisfaction to all the officers of the 2d Infantry to know that another commanding officer of this regiment, Col. Francis H. French, has been recommended for a brigadier generalship, and this deserved honor coming to the colonel will be doubly appreciated by those officers who were so fortunate as to serve under Col. French during his command at Fort Shafter, as he was universally beloved by the members of his command.

The congratulations of all the old friends of Col. French still in the 2d Infantry are extended to the newly selected general in the U. S. army.

Sgt. William Ward of the Quartermaster Corps, who has been confined to the Department Hospital for some weeks on account of an injury to his back, has been restored to duty again.

First Lieut. Henry C. K. Muhlenberg left Tuesday evening on the Sierra for a trip to San Francisco while on the month's leave of absence granted him by Department Headquarters.

First Lieut. A. K. B. Lyman returned today from his trip to Hilo, where he has been attending the sessions of the Fifth Civil Convention, as well as visiting his family.

The second in the series of five dances to be given by the Headquarters Company for the purpose of defraying the expenses of a day-room for that organization, will be given Saturday evening, October 7. It has been arranged so that busses will meet all cars at the junction of King street and Kamehameha IV road, to convey visitors to the United Spanish War Veterans' hall, where the dance will be held. The popularity of the last assembly will assure a large attendance at this dance, also, as everyone favors the object for which the entertainment will be held.

The post exchange officer announces that Miss Daisy Jerome will reappear in her delightful capacity as a comedienne and monologist Thursday, Sept. 28, in the Amusement hall.

Lieut.-Col. William Weigel, 2d Infantry, has had charge of the general policing of the post, which has consumed several mornings of this week, and which has resulted in a decided improvement in the appearance and comfort of the cantonment.

In the post library for enlisted men of Fort Shafter it has been noticed that outside of the constant demand for popular modern fiction the book that is most frequently asked for and studied is "Dyk's Automobile and Gasoline Engine Encyclopedia," showing the great interest taken by the men in the study of automobiliana.

The overflow from the old artesian fountain at the northeastern end of the Fort Shafter athletic park on King street is being utilized by the use of a pipe line to convey water to irrigate the hibiscus hedges facing on King street, and the water will probably be available also for the improvement and upkeep of the athletic grounds.

Machinery for Mill Being Installed and Railroad Nears Early Completion

Mail advices from the mainland relative to Mineral Products Company progress were received yesterday covering both the work on the mill and progress of the railroad. Those heavily interested in the company here consider the reports as highly satisfactory.

Relative to the mill that is being built to handle the manganese dioxide ore the letters say that all machinery has arrived and installation is being completed and continues, "within a few days a trial run will be made. We will notify by cable when it starts."

This letter bears date September 18. As to the railroad the reports received say that rails have been laid to just above Adobe creek to the first of the last three trestles. Grading is completed to within three-fourths of a mile from the end of Jones Station. As soon as shipments of 1000 tons of chrome had been made hauling of gravel was to begin. Delivery of 10 cars for the road had been delayed by failure of couplers to arrive from the East where they had been ordered. These advices bore the date September 18.

Relative to chrome ore shipments which have now begun the Patterson Irrigator said on September 16, prior to such beginning:

"The first shipments of chrome ore from the Mineral Products Company's mine in Del Puerto canyon are expected to be made today or early next week. The 3000-foot tramway at the mine was being finished the middle of this week, and it was planned to start shipping at once, as the company has contracted to deliver a large quantity of the ore to purchasers in the East within a short time. The ore will not be treated at the company's local plant, but will merely be transhipped from the Patterson & Western to the S. P. cars."

"The shipment of chrome will mark the opening of the rich mineral field which lies in the Coast range adjacent to Patterson, in this field there is a wonderful store of valuable minerals, and many of the best deposits will likewise soon be opened up by the Mineral Products Company. Their railroad, the Patterson & Western, is now completed except for a few miles, and grading and track laying on the unfinished portion is being rushed. When finished the road will tap not only the chrome mine, but big deposits of silica, magnesite and manganese."

"The company's reduction plant at Patterson is now being finished and will be in operation in about two weeks. There have been some delays in getting machinery, but it is stated now that all the machinery has arrived."

MAINLAND LETTERS
CAUSE DEMAND FOR
ENGELS COPPER STOCK

Engels Copper stock was being sought this morning at \$2.80 before the regular session of the board. In explanation it was said that mail advices added to what was published in the Star-Bulletin recently relative to developments in the Superior Group. That article said that at the last advices from the property a shot had entered the face of a newly discovered vein four feet. The last mail advices said that at that time the vein had been cut over 10 feet more, had gone through 50 feet of that ore and the face was still in 8 to 10 per cent ore.

HUTCHINSON TO INVEST
\$100,000 IN BONDS

Hutchinson Sugar Company will invest \$100,000 in bonds, says the San Francisco Chronicle of September 12. This action was decided upon by the board of directors of the company at their meeting in this city yesterday. This announcement was sent out to stockholders this morning, together with the announcement of the extra dividend of 20 cents per share. The Hutchinson Sugar Company is in a strong financial condition and the money to be invested will come out of the surplus fund on hand.

At their meeting yesterday the board of directors of the Hutchinson Sugar Company declared an extra dividend of 20 cents a share, in addition to the regular monthly dividend of 30 cents. Both of these are payable October 5 to stock of record September 30.

INSANE SAILOR FROM
ST. LOUIS TAKEN TO
DEPARTMENT HOSPITAL

Going insane three days before the St. Louis reached port Tuesday morning, a Filipino, one of the regular members of the cruiser's crew, was removed from the vessel yesterday and taken to the Department Hospital at Fort Shafter.

It was stated today that the sailor's condition is thought not to be especially serious, and that he is doing as well as can be expected. For the three days following first signs of an unbalanced mental condition the Filipino was kept guarded. He had shown no previous signs of any mental ailment.

STOCKS IN THREE
COMPANIES HELP
TO SWELL TOTAL

Transactions in Olaa accounted for 1640 shares of the 2035 listed securities dealt in on stock exchange. Before the session sales were all at 17, but at the session it gained an eighth. The recovery seemed to come from a realization, according to at least one broker, that 500 tons reduction in crop was not so large as at first seemed especially in view of the higher prices now being realized and probably to be realized from the remainder of the crop. He considered that the increased price more than made up for the decreased crop.

Other listed securities to sell were Onomea 56 1-8, Hawaiian Commercial 50 1-2, Pioneer 42, San Carlos 18 1-4 and McBryde 11 1-2.

Mineral Products was again easily the leader in the unlisted stock market. Buying was strong and carried the stock from \$1.11 to \$1.16 up to noon. Sales totaled 6736 shares. Engels Copper was next in demand and rose 10 cents a share from \$2.30 to \$2.30, sales being of 3250 shares. Mountain King fell away but recovered 100 shares selling at 65 cents and another 100 at 75 cents. Oil continued strong, \$2.97 1-2 being paid in a sale of 100 shares.
